**Take the HQ Now to Save!**  
Deadline—September 30

## Take the HealthQuotient (HQ) for better well-being and savings

### Better Well-Being

Take the HQ for a healthier you. The HQ online health assessment identifies common concerns like high cholesterol, prediabetes and stress. After completing the HQ, you'll be eligible for phone-based health coaching—supportive guidance to help improve your well-being. Health coaching is provided by WebMD at no extra cost to you. You can access other helpful tools, too, through the HealthFlex/WebMD portal.

### Savings

Take the HQ to avoid paying extra on next year's Healthflex deductible.

- Individual deductible—avoid paying \$250 extra
  - Family deductible—avoid paying \$500 extra
- You and your spouse (if in HealthFlex) must *both* complete the HQ to avoid paying extra

### Quick—Easy—Confidential!

Complete the HQ in 15 minutes or less. If you did the Blueprint for Wellness biometric screening earlier this year, your health data is uploaded automatically into your HQ—for faster, more accurate data entry. If you missed Blueprint for Wellness, you can manually enter your information for the HQ.

HQ is confidential! Your church, annual conference, employer and HealthFlex cannot see your HQ and other health information, and WebMD health coaches are bound by federal HIPAA laws on patient privacy.

*Participation in HealthFlex wellness programs is voluntary.*
