During the 2022 Annual Conference, Children Matter Most called for us to work to address gun violence. We meet monthly on zoom the 4th Wednesday of the month from 12-1pm est. We will be present at this year's annual conference at the Children Matter Most and Diversity, Missions, and Justice booths. We are also hosting an art gallery.

Churches, clergy, and laity continue to be engaged in this important work. We have learned from multiple organizations this year about how they engage in reducing gun violence, including Moms Demand Action. We invite you to continue to engage in prevention and response efforts to end gun violence. Join the task force and/or a learning cohort, use one of the resources in your local church, community, and/or district, contact your local, state, and federal government representatives, start a victim support group, and join us around Indiana on September 25th, 2024, on the National Day of Remembrance for Murder Victims. More information can be found at inumc.org/gunviolence.

Rev. Jen Huff, Chair
